

Environmental Policy Statement

It is the policy of DOWSE HAULAGE to minimize the impact on the environment of its activities in the Road Haulage services in a responsible and accountable way by means of a program of continuous improvement, balancing the needs of the environment with operational obligations and available resources.

We aim to meet and where appropriate exceed the requirements of all relevant regulations and legislation.

We minimize waste in all of our operations as far as is economically practical and promote recycling and the use of recycled materials whilst reducing the consumption of materials. We ensure appropriate disposal of waste products

We manage energy wisely and reduce wherever reasonably practical the level of harmful emissions in order to contribute to a healthy and sustainable environment.

We encourage similar environmental standards to our own from suppliers and subcontractors

We enhance environmental awareness and commitment from our employees through training and communication

Organization and Responsibility

The management and control of our environmental impact is an integral responsibility of the management team led by the company Managing Director, MERVIN DOWSE,

Environmental responsibilities of all personnel according to job function from Managing Director downwards are detailed within the DOWSE HAULAGE Health and Safety Management System. The essential elements of the company environmental management system are as follows:

Provision of transparent policy and procedures including waste management.

Effective induction and training program for all personnel

Regular Management reviews
